INTRODUCTION

My name is Yazid Khairul, I am a final year student of SMKN 1 Cirebon. I'm familiar with modern web frameworks such as Next.js and Laravel. I am highly motivated to continue learning new technologies and to grow as a professional web developer. Additionally I have practiced my skill through projects such as a Quran website online and a Booking Hotel.

EDUCATION

SMKN 1 CIREBON

2023 – 2026

Software Engineering

SKILLS

Technologies : HTML, CSS, JavaScript, PHP, TypeScript, Tailwind CSS, React JS, Next JS, Express JS, Laravel.

Database : MySQL, MongoDB, Supabase.

FEATURED PROJECT

Jikan Anime Unofficial (Next JS & Tailwind CSS)

Jikan Anime Unofficial is a web application that allows users to browse and discover Japanese anime. The content is sourced from the public JIKAN API <https://jikan.moe>. Built with Next.js and styled using Tailwind CSS, the site offers a fast and responsive user experience.

My Quotes (React JS, Mongo DB, Express JS & Tailwind CSS)

My Quotes is a personal website designed to store and organize my favorite quotes from social media. I developed this project as a full-stack developer, handling both the frontend and backend to create a clean, responsive, and user-friendly interface.

Shoes Store (PHP, MySQL & Tailwind CSS)

Shoes Store is an e-commerce website for buying shoes online. The platform includes essential features such as product CRUD (Create, Read, Update, Delete) operations and detailed invoice transaction reporting. This project showcases both backend and frontend functionality in managing product data and handling customer orders.

Gloria Hotel (Laravel, MySQL & Tailwind CSS)

Gloria Hotel is an online hotel reservation platform designed to manage room bookings efficiently. This project was developed by a team of 7 members, and I contributed as the backend developer, focusing on features such as user authentication, booking management, and database integration.
